Will has a type.

he doesn't know he has a type but he *definitely* has a type. It wasn't something so obvious as those people who got hung up on 'prison bae' but more subtle in nature. The deep undertone of a person who seemed just as deranged as he felt on daily basis. Someone who could understand that part of himself that he kept under wraps. That could understand and connect with it. He hadn't really realized that in order to make that connection they would have to be just as broken inside as he was.

He also hadn't realized what might happen if say his old unhinged boyfriend and his new unhinged boyfriend met.
